COVID-19 Vaccination Clinic to be held Saturday, January 29th, 2022

The Oneida County Health Department (OCHD) has opened COVID-19 vaccine appointments for individuals 12 years and older for Saturday, January 29th, 2022. The vaccination clinic will be held on the 2nd floor at the Oneida County Health Department located at 100 W Keenan Street, Rhinelander from 9am-12:30pm. Moderna and Pfizer vaccine will be available.

Appointments are strongly encouraged and can be scheduled here: <https://bookochd.timetap.com/#/>.

First doses, second dose, and booster doses will be available.

- Individuals who received their second dose of Moderna or Pfizer more than five months ago are eligible for a booster dose.
- Individuals who received a dose of J&J at least two months ago are eligible for a booster dose.

Why Should I get my COVID Vaccine?

- Getting vaccinated against COVID-19 can lower your risk of getting and spreading the virus that causes COVID-19. Vaccines can also help prevent serious illness and death.
- All steps have been taken to ensure that vaccines are safe and effective for people ages 5 years and older.
- If you already had COVID-19, you should still get a COVID-19 vaccine for added protection.
- When you are up to date on COVID-19 vaccination, you can resume many activities with proper precautions (e.g., mask wearing in indoor public spaces).
- **Booster:** Studies show after getting vaccinated against COVID-19, protection against the virus and the ability to prevent infection with variants may decrease over time.
- **Booster:** Quarantine recommendations have changed and it is now recommended to quarantine at home for five days with five days of masking if it has been longer than six months since you completed your primary vaccination series.

Please call 715-401-4150 if you are having trouble scheduling or do not have access to the internet to schedule.
