Graph Title	Description	Year	Source	Link/Location
The percent of housing units that are occupied or vacant	The percent of housing units that are occupied or vacant in Oneida County. <i>*A housing unit is <u>occupied</u> if a person or group of persons is living in it at the time of the interview or if the occupants are temporarily absent, as for example, on vacation. The persons living in the unit must consider it their usual place of residence or have no usual place of residence elsewhere. The count of occupied housing units is the same as the count of households.</i> <i>* A housing unit is <u>vacant</u> if no one is living in it at the time of the interview, unless its occupants are only temporarily absent. In addition, a vacant unit may be one which is entirely occupied by person(s) who have usual residence elsewhere.</i>	2017-2021	Census Bureau	<a href="https://censusreporter.org/profiles/05000US55085-oneida-county-wi/#geographical-mobility">https://censusreporter.org/profiles/05000US55085-oneida-county-wi/#geographical-mobility</a>
Total number of housing units	A housing unit is a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied (or if vacant, is intended for occupancy) as separate living quarters. Separate living quarters are those in which the occupants live and eat separately from any other persons in the building and which have direct access from the outside of the building or through a common hall.	2022		<a href="#">U.S. Census Bureau QuickFacts: Oneida County, Wisconsin</a>
